BENNINGTON

2572 QXCWWA Fiberglass

EXTERIOR : Custom paint color inspired by one of the first Bennington QX Series owners and accented with the Midnight Black Sport Arch and Blackout Package.

INTERIOR : Upholstered in Glacier White and accented with Espresso hand-stitched Diamond Quilt.

A new design inspired by the universal appeal of sleek lines and distinct handcrafted styling the QX series empowers you to choose from over 20,000 color options, creating something that is completely unique to you. Be inspired!

Dual console: Next Generation command center starboard, co-captain console with counter top, bar sink and Kicker stereo port side. Smoke tinted walk-thru windshield. Cladded Sport Arch with illuminated Wet Sounds™ speakers.

Intuitive design features like exterior bow speakers, an industry first; stir you to participate in the world around you.

2575 QXSBW Fiberglass

EXTERIOR : Umber Metallic, a color inspired by an original Bennington QX owner's SUV to match their boat.

INTERIOR : Upholstered in Affluence Tuscan Dune and accented with Napa Beige hand-stitched Diamond Quilt.

This QX model is raw and striking with unencumbered elegance. The new performance boat displays Bennington's exceptional attention to detail with a fresh twist on a timeless design.

Recessed toe kick integrated into the design.

2575 QCWA I/O Sport Arch

EXTERIOR : Sunset Red with Metallic White accent.

INTERIOR : Upholstered in Glacier White pillow-top and accented with Espresso hand-stitched Diamond Quilt.

A Flagship for the right reasons. Great design includes not only styling and performance, but also demands service accessibility and reliability. Bennington is the industry leader in building stern drive performance pontoons.

Stainless Corvina wheel with leather trim.

Traditional Teak swim platform.

2350 QCL

EXTERIOR : Metallic White with Metallic Sorrel accent.

INTERIOR : Upholstered in Affluence Tuscan Dune pillow-top and accented with Napa Beige hand-stitched Diamond Quilt.

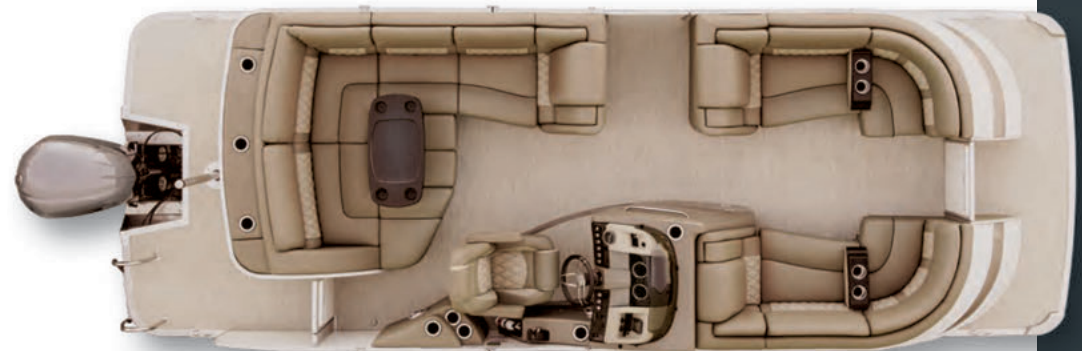

Club lounge seating with removable fill-in cushions with stowable table.

Blue Ice LED Underwater and Side Illumination.

Wide-berth chaise lounges with flip-down armrest cup holders and USB port.

2552 QCWWA I/O Sport Arch

EXTERIOR : Midnight Black with Smokey Granite accent, Blackout Package and Skull Graphic.

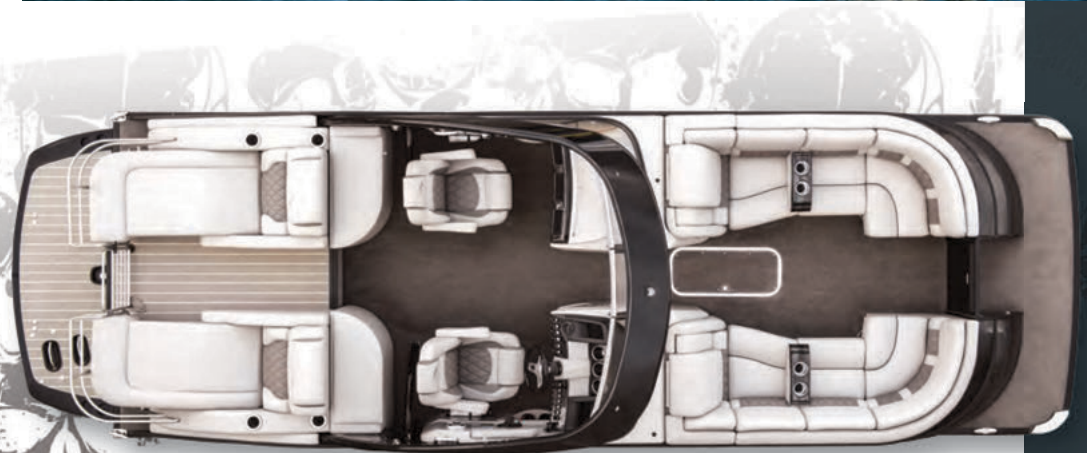

INTERIOR : Upholstered in Sandstone pillow-top and accented with Driftwood hand-stitched Diamond Quilt.

Desperate to be driven the Dual Console Command Center is alluring and sensual. We invite you to get behind the wheel and experience it for yourself!

Inspired by one of the most exclusive yacht builders in world; the haughty appearance of this sport boat is a reflection of its aggressive performance on the water. Desperate to be driven, the Dual Console Command Center is alluring and sensual. We invite you to get behind the wheel and experience it for yourself!

2575 QCWT Sport Tower

EXTERIOR : Smokey Granite with Blackout Package and Metallic White accent.

INTERIOR : Upholstered in Glacier White pillow-top and accented with Carbon hand-stitched Diamond Quilt

Refined elegance arrayed; it's colors are the reflections of calm grey waters. With the Sport Arch and crisp sounding Roswell system this boat screams to be used by the whole family.

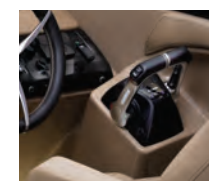

Sport Tower with sewn-in bimini, tow knob and illuminated Roswell speaker system. Blue Ice LED underwater and side Illumination.

Deluxe stern lounges. Illuminated Roswell speakers. Blue Ice LED cup holder lighting. Aged Teak flooring on extended aft deck. Removable stainless steel ski pylon.

Q30 A NEW WIDE-BEAM BENNINGTON

30 QSRWAX2
EXTERIOR : Midnight Black with Blackout Package and Smokey Granite accent.
INTERIOR : Upholstered in Affluence Napa Beige pillow-top and accented with Tuscan Dune hand-stitched Diamond Quilt.

A new wide-beam Bennington is not simply bought, it is commissioned! Hand-Crafted artistry with an invitation for you to create a one of a kind Bennington. With a 10' wide beam, this boat has an abundance of space and yet handles like a sports coupe.

G22 STERN RADIUS

2250 GSR

EXTERIOR : Metallic Sorrel with Metallic White accent.

INTERIOR : Pillow-top upholstery in Tuscan Dune with Ostrich accent.
Standard and optional equipment shown.

It all started with a lounge seat...and carries on today. Bennington launched in 1997 with an idea for a better made boat, beginning with seating as an elemental component to comfortable boating.

Stern lounge radius seating with Espresso Teak dinette table. Pure-comfort captain and co-captain chairs. Extended aft deck. Ski tow bar. 4-step curved boarding ladder.

Optional bow gate seat with stowable lounge fill-in cushions.

2375 GCW

EXTERIOR : Champagne with Metallic White accent. Bimini top.

INTERIOR : Pillow-top upholstery in Sandstone with Driftwood accent.
Standard and optional equipment shown.

Originally introduced at the Miami Boat Show as a conceptual prototype developed by Bennington designers, rear-facing lounges are now the mainstay in pontoon seating throughout the industry.

Stern lounge seating. Blue Ice LED cup holder lighting. Nutmeg Aqua Teak flooring. Extended aft deck.

Shown with optional Sport Arch and Ski tow bar.

2550 GBR

EXTERIOR : Smokey Granite with Sunset Red accent. Blackout package.

INTERIOR : Pillow-top upholstery in Tuscan Dune with Napa Beige accent.
Standard and optional equipment shown.

Bennington entertainment seating is designed to be fun, comfortable and practical so you can remain at your favorite "station" while the captain is underway. Face forward or aft from the entertainment area.

Starboard galley and portside entertainment bar with sink. Both include perimeter lighting. Graywood table. 360 degree swivel recliners. Pure-comfort recliner at helm.

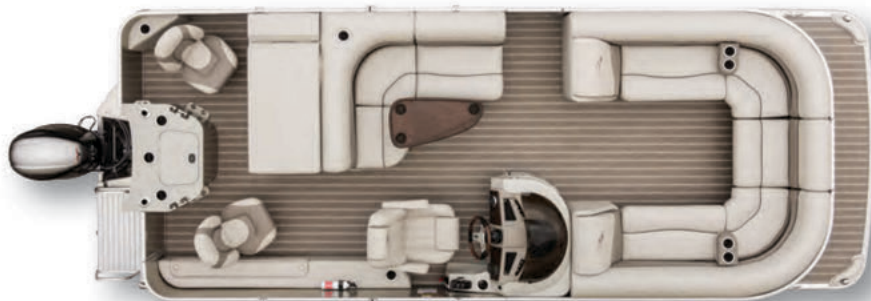

Bow radius seating with dual chaise lounges and removable bow gate seat. Portable cup holders.

Stern fishing station with live well. Stainless steel rod holders and cup holders. Deluxe bass seats that swivel.

Starboard rod locker (optional).

2275 GS

EXTERIOR: Champagne with Bronze accent.

INTERIOR: Standard upholstery in Sandstone with Maple Matte accent. Standard and optional equipment shown.

Pure-comfort recliner at helm. Sun pad lounge with pop-up privacy enclosure. Midship bench seating. Maple Matte Teak table.

PERFORMANCE UPGRADES

UNDER DECK WAVE SHIELD

Deflects water from the bottom of the deck, which reduces “surging” and enhances the soft, quiet ride in rough water.

LIFTING STRAKES

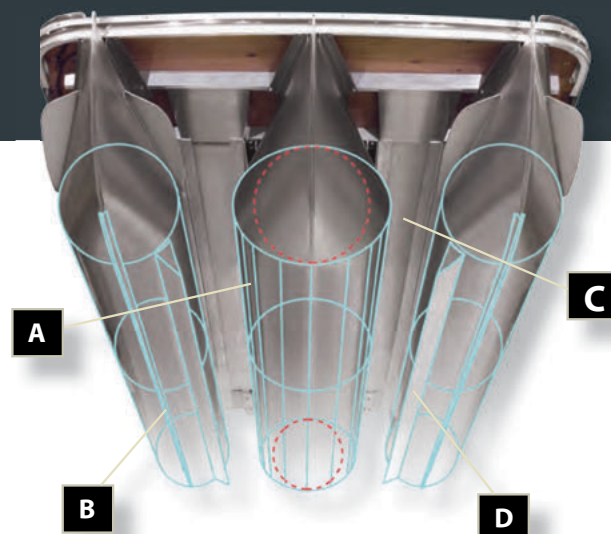

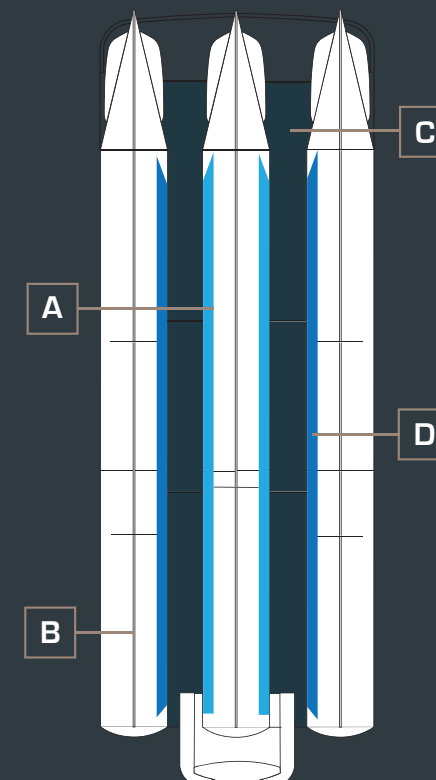

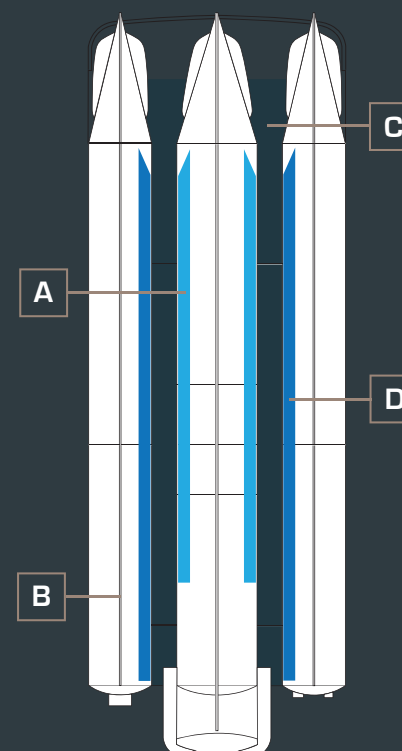

Add bow lift, which increases handling across choppy water and improves speed as much as 5 miles per hour, depending on engine selection. For optimum performance, lifting strakes are recommended for engines rated 115 hp or greater and for boats exceeding 30 mph. Lifting strakes are recommended for 90 hp or greater on boats with twin elliptical pontoons.

SEASTAR® HYDRAULIC STEERING

Eases steering effort with higher horsepower engines. Expect two-handed handling in hard turns. Recommended for engines rated 115 hp or greater.

POWER-ASSIST HYDRAULIC STEERING

Power-Assist Steering is powered by an electronically controlled hydraulic pump connected to the SeaStar® system. The electric pump “does the work for you” so the driver can expect incredible handling and turning with little effort. Recommended for engines rated 150 hp or greater.

A. Lifting Strakes

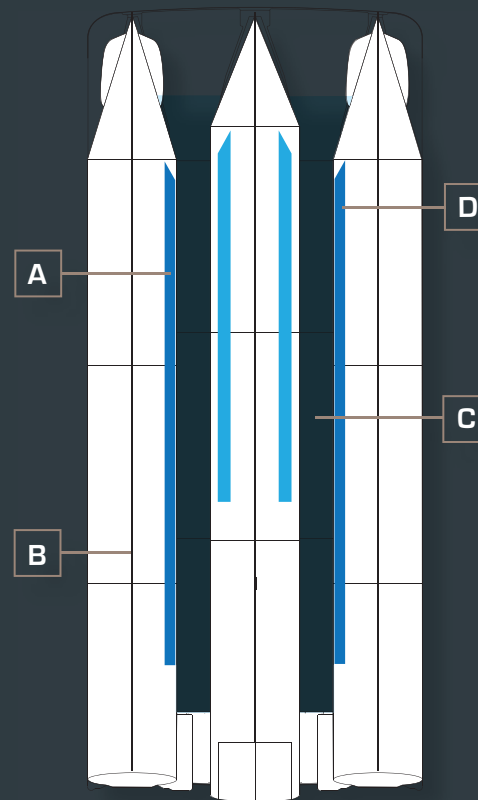

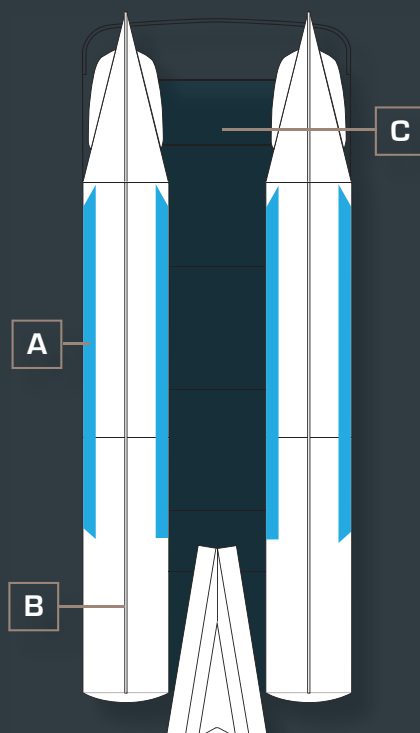

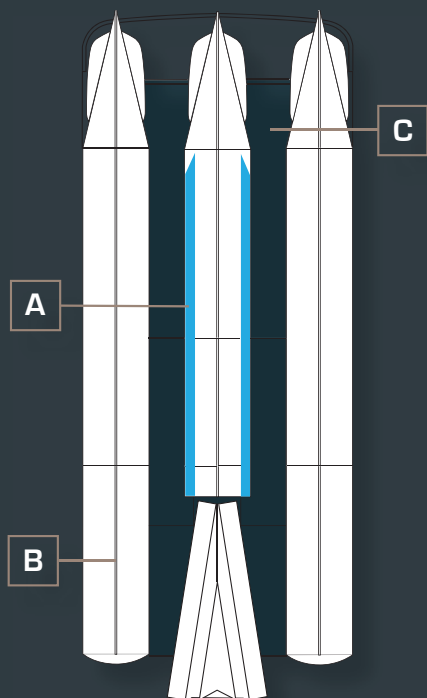

B. Full-length V-Keels
(Express Package) Full-length
Solid Round Keels (SPS/Twin
Elliptical)

C. Under Deck Wave Shield

D. Performance Foils

ESP is our top of the line in performance. It offers enhanced stability and water displacement with quick planing and handling characteristics that rival a fiberglass sport boat. Designed for high horsepower applications, ESP is optional on outboard models and comes standard on all Bennington I/O models. It includes two 25" diameter outer pontoons with performance foils, reinforced splash fins and .100 gauge aluminum, a patented 32" Elliptical center pontoon with lifting strakes and an under deck wave shield. The Power-assist steering option and a fuel tank upgrade is required for maximum performance. Especially on boats equipped with 150 hp or more.

The **SPS** hull offers handling and performance characteristics similar to ESP in an affordable package designed for engines 150 hp and less. SPS includes 3 full-length 25" diameter pontoons, lifting strakes on the center pontoon, performance foils on the inside of the outer pontoons, solid round keels, an under deck wave shield, SeaStar® hydraulic steering and a 32 gallon transom fuel tank on select models.

The **Express Tube Package** offers increased bow lift for lighter, lower horsepower engines. Package includes a modified center tube with lifting strakes, V-Keels on all three tubes, and a modified wave shield. Add SeaStar® hydraulic steering for engines greater than 115 hp (25" tubes required).

Our exclusive **Elliptical Pontoons** combined with optional lifting strakes, performance foils, solid round keels and an under deck wave shield offer incredible two-tube performance. Each elliptical pontoon adds over 1,000 lbs. of additional buoyancy, allowing the boat to sit higher and run faster. These pontoons increase deck stability both fore and aft as well as side to side. Available as a Freshwater or Saltwater package. Saltwater package includes Saltwater anodes and sealed lifting strakes/performance foils.

ESP 10' Wide Beam is rated for up to 700 hp. It includes performance foils, lifting strakes, reinforced splash fins, three 32" diameter elliptical pontoons made of .125 gauge aluminum internally reinforced.

ELECTRIC DRIVE

Go green with your choice of two Torqeedo Cruise models, or the MinnKota E Drive. The Torqeedo Cruise 4.0 is a 9.9 hp equivalent and the smaller Cruise 2.0 offers 5 hp equivalent power. The 2 hp equivalent MinnKota E-Drive is a new power offering for 2016. These electric outboards are ideal for electric only or horsepower restricted lakes. Both Torqeedo and MinnKota powered boats include factory installed controls.

QUALITY BUILT
INDUSTRY LEADING
DESIGN

Take the time to look under and around any Bennington boat. The quality and attention to detail is unsurpassed. We use only proven construction techniques and the highest quality materials. Since we take no construction short-cuts, Bennington pontoons will be the most solid, quiet riding boats on the water and they are backed by the best warranty in the industry. If you take the time to compare...your choice will be Bennington.

Recipient of the NMMA's CSI award 14 years in a row...Every year since our inception.

CROSS CHANNELS

Our channels are twice as thick as those used by many of our competitors. Bennington's taller 3" channel provide more vertical strength than the typical 2" channel. The heavy-duty cross channels combined with our extruded M-deck brackets and Fanged Elevator bolted deck construction minimizes deck twisting ensuring your Bennington will provide the most solid, quiet pontoon ride in the industry. 3" tall, .250" thick cross channels standard in bow and stern locations. 3" tall, .125" thick cross channels standard in mid ship locations.

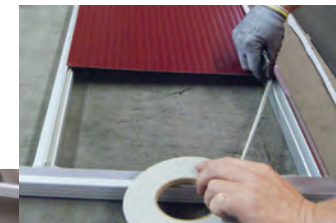

.250" Thick Bow and Stern Cross Channels

Bennington Stainless Steel Fanged Elevator Bolt with Nylon Insert Locking Nut

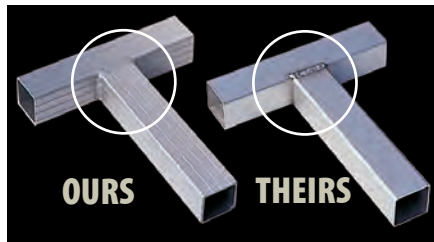

16" On-center Midship Cross Channels
24" On-center Cross Channels standard on S Series models

HEAVY DUTY RAIL SYSTEM WITH DRAINAGE

The rail system is a solid, rattle free structure thanks to supportive aesthetics and a resilient sealing strip that's placed between each panel and railing touch point. 25" rail spacers are placed between the deck and rail allowing easy deck drainage and ventilation to reduce mold and mildew.

4-SIDED ANODIZED WELDING

1.25" Rails are serrated for strength and good looks, welded on 4 sides (not 2) and anodized after welding for a superior finish.

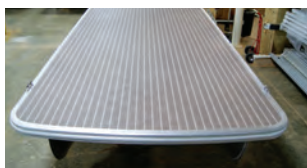

FULL-LENGTH KEELS

Full length keels protect the tubes in shallow water and improve tracking while underway. Optional solid keels are recommended for use in salt water.

RAIL SPACERS

.25" rail spacers are placed between the deck and rail allowing easy deck drainage and ventilation to reduce mold and mildew.

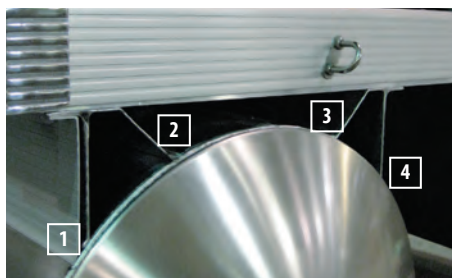

All flooring is glued and stapled.

All under-deck wiring is encased in conduit

REINFORCED BOW RADIUS CHANNELS

Bow decks and corners are reinforced with a .250" thick radius bow channel that supports the heavy-gauge anodized aluminum bow trim. Stronger than bow corner castings, they are less susceptible to damage.

M-DECK BRACKETS

Extruded (.125") deck brackets are thicker and stronger than thin sheet aluminum brackets. Our stern deck brackets have 4 points of contact, distributing weight evenly over the end cap, the strongest part of the tube. We space our deck brackets wider and lower than our competitors, greatly reducing the amount of twisting and racking the deck can experience while in rough water.

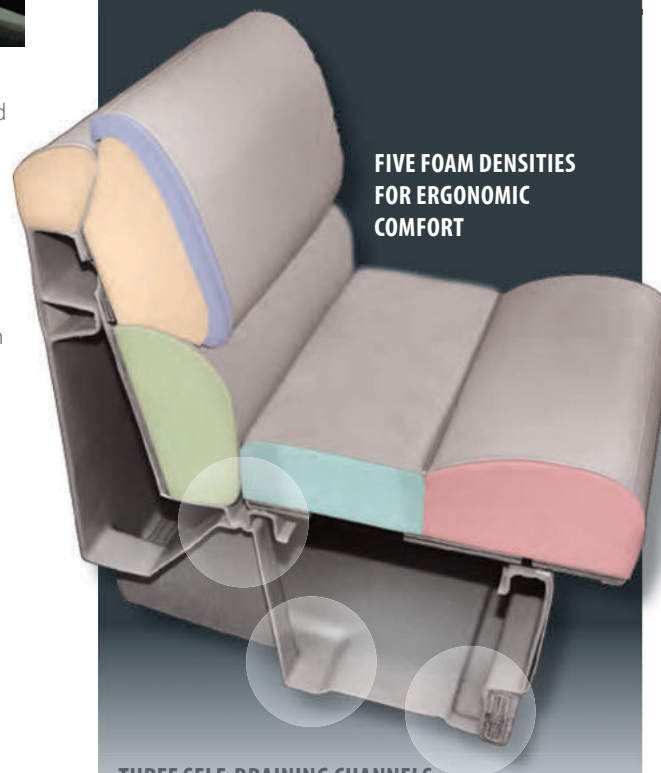

QUICK RELEASE BIMINI

Tops raise and lower in seconds with our patented quick-release fittings designed to eliminate all rattles.

ALL BENNINGTON SEATING FEATURES EXCLUSIVE ICON™ SOFT-TOUCH UPHOLSTERY.

Our ergonomic design approach offers the industry's most sophisticated seating. The Infinity Topcoat is engineered for ultimate UV stability, easy cleaning, resistance to abrasions, mildew and stains. A Satin texture weave backing allows for smooth, tailored, instant-recovery upholstery with no puckering, or bagging. The unique high density foam used in five compressions provides the perfect combination of support and plush comfort.

FIVE FOAM DENSITIES FOR ERGONOMIC COMFORT

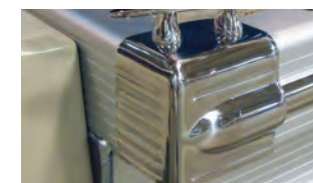

THREE SELF-DRAINING CHANNELS

Fiberglass consoles with plug and play water-proof Duetsch connectors virtually eliminates the possibility of electrical damage.

Each boat is individual wrapped with protective cloth and shrink wrapped to ensure perfection at time of delivery.

HEAVY DUTY STAINLESS FITTINGS

Cleats and stern corners are made of marine grade stainless steel, providing 3 times the strength of aluminum castings.

BENNINGTON WARRANTY

Bennington takes pride in having high standards and has been honored with more quality and satisfaction awards than any pontoon maker in the industry. Awarded with the NMMA's Excellence in Customer Satisfaction 14 years in a row, our goal is to continuously improve our customer experience and provide boats that offer a lifetime of enjoyment. The CSI Award recognizes manufacturers who receive an exceptional satisfaction score for overall boat, engine and dealer experience.

BOW-TO-STERN WARRANTY

As the original owner of a new Bennington, the first five years are on us.* All materials and workmanship on your Bennington are covered – including carpet, upholstery and electronics. No hassles, no worries. The engine is covered by the engine manufacturer's warranty.

LIMITED LIFETIME DECK WARRANTY

As a Bennington owner, you receive a Limited Lifetime Warranty on the 7-ply, pressure-treated, marine grade wooden deck. Since we fasten the rails and deck directly through the under structure, Bennington decks flex less and will provide you with a lifetime of enjoyment.

LIMITED LIFETIME STRUCTURAL WARRANTY

As a Bennington owner, you receive a Limited Lifetime Warranty on the structure, pontoons, gates, channels, motor mount and seat frames. If anything goes wrong, we'll fix it. Season after season, your Bennington will be ready.

TRANSFERABLE WARRANTY

Bennington warranties are transferable through your local Bennington dealer adding to the resale value of your boat. The warranty period begins on the original owner's new boat purchase date. If the boat is sold during its warranty period, the standard warranty coverage will carry over to the new owner once the warranty is transferred through an authorized Bennington dealer.*

NO HAND-OFF TO OUR SUPPLIERS

Bennington doesn't hand off warranty responsibilities to our suppliers. When it comes to warranty claims, your Bennington dealer will take care of it directly with Bennington. After all, no one cares more about your satisfaction than we do.

NO PRO-RATING

Bennington boats carry the same valuable warranty whether it's the first day or the last day of the warranty period. We do not use a declining scale of value in our warranty, also known as pro-rating.

PARTNERSHIP WITH OUR DEALERS

Bennington dealers receive 100% of the retail shop labor rate for warranty repairs. This ensures that your warranty work is a priority and completed quickly with your satisfaction in mind.

* Get the most out of being a Bennington owner by registering for the extended 7 Year warranty coverage. Visit clubbennington.com and register today! Please visit benningtonmarine.com for specific warranty coverage details.

THANK YOU, TEAM BENNINGTON

OUR SUCCESS IS DRIVEN
BY THE DEDICATION AND
EXCELLENCE OF OUR TEAM.
WE DON'T TAKE THAT FOR
GRANTED, EVER.

BENNINGTON

Established 1997
