

The background is a solid red color with a subtle, artistic pattern of water ripples and bubbles. The ripples are more pronounced on the left side, creating a sense of movement and depth. The overall aesthetic is clean and modern, with a focus on the brand name.

BENNINGTON

L U X U R Y P E R F O R M A N C E B O A T S

ABOVE ALL...

BENNINGTON

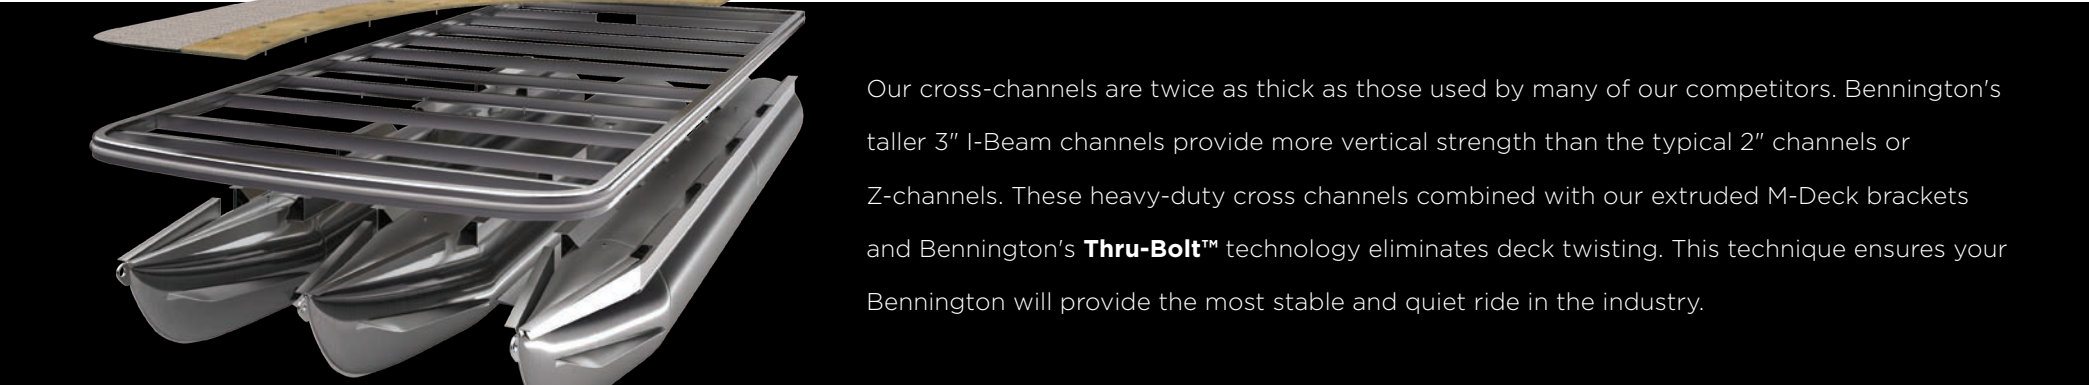

WHAT MAKES BENNINGTON THE BEST-SELLING PONTOON?

Bennington boats are engineered, built, and finished with a single idea: Every detail matters. Starting with solid deck construction that includes imposing hardware never to be seen, to the painstaking time that is put into every model—and it shows. Bennington's dedication and attention to detail are unparalleled making it the most reliable and quietest riding boat on the water, all backed by an industry-leading lifetime + 10-year bow-to-stern warranty. Beyond construction, a Bennington comes with performance choices for every desired outcome, price points for every boater, and options that allow each owner to make a Bennington their own.

WHAT MAKES A BENNINGTON?

Bennington has earned the coveted 2019 NMMA's CSI Award, our Industry's recognition of strong customer satisfaction. Bennington has been the recipient of 22 CSI awards, earning it every year since its inception.

.250" Thick By 3" Tall I-Beam
Cross-Channels In The Bow & Stern

Our cross-channels are twice as thick as those used by many of our competitors. Bennington's taller 3" I-Beam channels provide more vertical strength than the typical 2" channels or Z-channels. These heavy-duty cross channels combined with our extruded M-Deck brackets and Bennington's **Thru-Bolt™** technology eliminates deck twisting. This technique ensures your Bennington will provide the most stable and quiet ride in the industry.

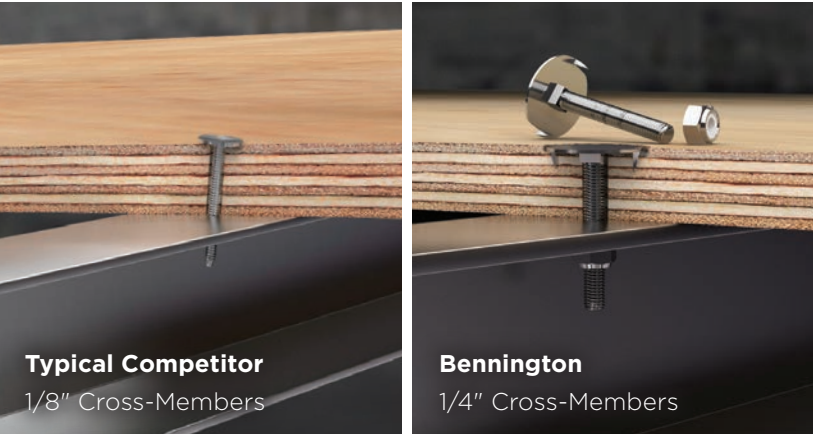

Five-Densities
of Foam for
Ergonomic
Comfort &
Durability

Three self-draining channels

With the finest craftsmen and first-class upholstery, Bennington is known for its durable and luxurious interiors. Shown above, Simtex™ is soft to the touch, easy to clean, durable premium vinyl that is also found in world-class yachts and is backed by our 10-year warranty.

While other manufacturers screws their deck in place, Bennington uses our exclusive **Thru-Bolt™** technology on the entire deck. This custom-designed system uses 1/4" stainless steel elevator bolts with prongs and locking nuts compressing the deck and structure together between the 1" diameter bolt head and washer to maximizing strength and durability. With a combined experience of over 100 years, our team lives by the philosophy of using the best construction and never cutting corners.

Typical Competitor
1/8" Cross-Members

Bennington
1/4" Cross-Members

**Heavy Duty
Stainless Steel
Fittings**
Bennington leverages marine-grade stainless steel hardware and fasteners, providing 3 times the strength of their aluminum counterparts.

**Heavy Duty
Rail System With
Exclusive Drainage
& Drying System**
Heavy gauge .250" rail spacers are placed between the deck and rail allowing deck drainage and ventilation to reduce mold and mildew.

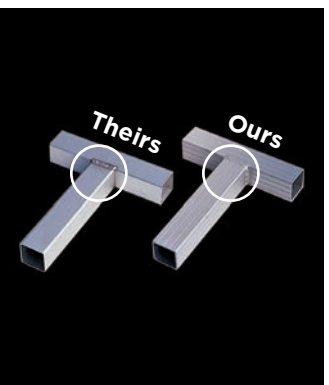

**Quick-Release
Bimini**
Tops raise and lower in seconds with our patented quick-release fittings designed to eliminate all rattles and corrosion.

**Reinforced Bow
Radius Channels**
Bow decks and corners are reinforced with a .250" thick radius bow channel that supports the heavy gauge anodized aluminum bow trim. Stronger than bow corner castings, they protect the deck from damage.

**Deutsch™
Connectors**
Bennington utilizes Deutsch™ connectors because of their proven reliability in some of the harshest environments, including aerospace, defense, and transportation.

**4-Sided
Anodized Welding**
Bennington's rails are serrated for strength and looks, welded on 4 sides (not 2), and perma-anodized electromagnetically after welding for a superior finish.

Q X S P O R T | Q X | Q

BOWRIDER

Meet the industry's first bowrider-style pontoon brought to life through breakthrough engineering and a forward-thinking mindset. By dropping the front of the pontoon, we're increasing driver sightlines and bringing riders closer to the water for an optimum experience everyone can see and feel.

LOW-PROFILE & TAPERED RAILS

- Benefits:**
- A bold & athletic cut, inspired by European sports cars
 - Sporty sleek exterior commands attention on the water
 - Even easier to drive and dock with increased driver sightlines
 - Riders feel even closer to the water, for an enhanced experience

VANTAGE-POINT™ CAPTAIN'S VIEW

- Benefits:**
- Low-profile rails, View-Ports™, & step-down bow enhance captain's sightlines
 - Easy to drive with increased forward visibility in all driving conditions including docking & picking up skiers
 - Similar to stadium seating the driver can easily see & communicate with passengers

STEP-DOWN U-LOUNGE™

- Benefits:**
- Versatile conversation-friendly step-down bow seating with the ultimate in comfort and "near water" rider experience
 - Sport interior with comfortable taller lounge backs with adjustable headrests
 - Large recessed lumbar pockets with USB ports for quick & secure storage

VIEW-PORTS™ IN THE BOW RAILS

- Benefits:**
- Increased port & starboard visibility for the captain & bow passengers
 - Well placed grab handle for dock hands when docking
 - Enjoyable "near water" rider experience
 - Comfortable sandbar conversations

INTEGRATED BENCH-BACK STORAGE

- Benefits:**
- Dry storage spaces with easy access from inside the boat & from the dock
 - Perfect for little things like purses, wallets, sunscreen, phones, & sunglasses
 - Easily access from dockside with the playpen cover on
 - Charge a phone via the USB ports while stored inside

INTEGRATED V-HULL™ PERFORMANCE PACKAGE

- Benefits:**
- Top-of-the-line performance & control comes standard
 - More Storage: Up to two over-sized in-floor center storage compartments come standard
 - Designed to fit standard boat lifts and tritoon trailers
 - Performance foils and underdeck wave shield come standard

PERFORMANCE PACKAGE

Shallow Draft: Helps when navigating shallow waters by riding higher in the water.

Keels: Reinforced guides placed at the bottom of the tube to protect it in shallow water and improve tracking while underway.

Performance Foils: Similar to a wing of a plane, these are placed on the bottom side of the tubes to provide hydrodynamic lift. Improved acceleration, top speed and stability are added benefits. SPS, ESP and ESP-10 will also dramatically increase the boat's turning performance, especially during heavy banking.

Lifting Strakes: Add lift, decrease splashing and increase top speed as much as 4.8 miles per hour, depending on engine selection. For optimum performance, upswept lifting strakes are recommended for engines rated 115hp or greater and for boats exceeding 30 mph. Lifting strakes are recommended for 90 hp or greater on boats with twin elliptical pontoons.

Seastar® Hydraulic Steering: Eases steering effort with higher horsepower engines. Expect two-handed handling in hard turns. Recommended for engines rated 115 hp or engines with 4 cylinders or less.

Power-Assist Hydraulic Steering: Powered by an electronically controlled hydraulic pump connected to the SeaStar® system. The electric pump “does the work for you” so the driver can expect incredible handling and turning with little effort. Recommended for engines rated 150 hp or greater.

Underdeck Wave Shield: Deflects water from the bottom of the deck, which reduces “surging” and enhances the soft, quiet ride in rough water.

Check with your local dealer for current engine hp certifications for specific models and configurations.

* Illustrations and descriptions depict a typical build. Configurations will vary by specific model, length and options.

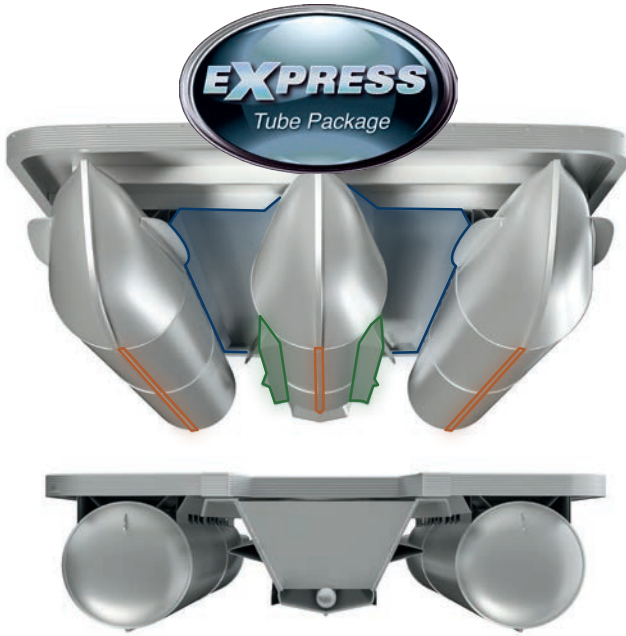

32" TWIN ELLIPTICAL

Shallow Draft	Best
Stability	Best
Watersports	Good
Outer Tubes	32" Elliptical
Center Tube	n/a

Bennington's exclusive Elliptical Pontoons combined with lifting strakes, performance foils, solid round keels and an under deck wave shield offer incredible two-tube performance. Each elliptical pontoon adds over 1,000 lbs. of additional buoyancy, allowing the boat to sit higher and run faster. These pontoons increase stability both fore and aft as well as side to side. Available as a Freshwater or Saltwater package. Saltwater package includes Saltwater anodes, sealed lifting strakes/performance foils, underdeck wave shield.

✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

EXPRESS

Shallow Draft	Good
Stability	Good
Watersports	Better
Outer Tubes	25"
Center Tube	25" Express Length

The Express Tube Package offers increased bow lift for lighter, lower horsepower engines. Package includes a modified center tube with lifting strakes and a modified wave shield. Add SeaStar® hydraulic steering for engines greater than 115 hp (25" tubes required).

K LS HS W

QXS	QX	Q	RX	R	G	SXP	SX	S	SV
✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

SPS & SPS+

Shallow Draft	Good
Stability	Better
Watersports	Best
Outer Tubes	25"
Center Tube	25" Full Length

SPS offers handling and performance characteristics similar to ESP in a lighter, more affordable package. SPS is designed for 4 cylinder engines 200 hp or less. The package includes 3 full-length 25" diameter pontoons, lifting strakes on the center pontoon, performance foils on the inside of the outer pontoons, solid round keels, under deck wave shield, SeaStar® hydraulic steering and a 32-gallon transom fuel tank on select models. SPS outer tubes use .080 thick aluminum and the center is a combination of .080/.100 SPS+ is for engines over 200hp and has heavier duty construction similar to ESP. Upgrades include a composite transom, additional brackets, internal bracing, weld spacing and an aluminum thickness of .100 throughout.

✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

ESP

Shallow Draft	Better
Stability	Best
Watersports	Best
Outer Tubes	25"
Center Tube	32" Elliptical

Top of the line in performance for boats with 8' 6" beams. Offers enhanced stability and water displacement with quick planing and handling characteristics that rival a fiberglass sport boat. Designed for high horsepower applications, ESP is optional on outboard models and comes standard on all I/O models. It includes two 25" diameter outer pontoons with performance foils, splash fins and .100 gauge aluminum, a patented 32" Elliptical center pontoon with lifting strakes and an under deck wave shield. The Power-assist steering option and a center fuel tank upgrade is recommended for boats equipped with engines rated at 200 hp or greater and is required on full windscreen models.

✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

ESP 10' WIDE-BEAM

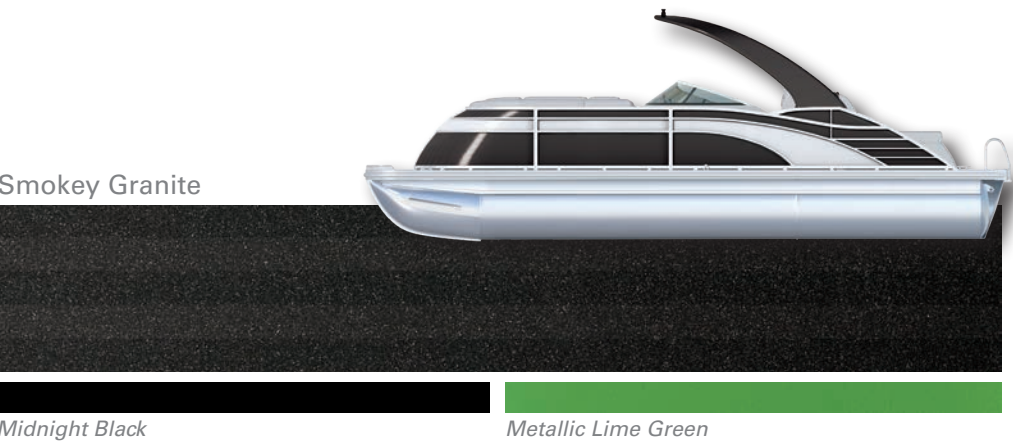

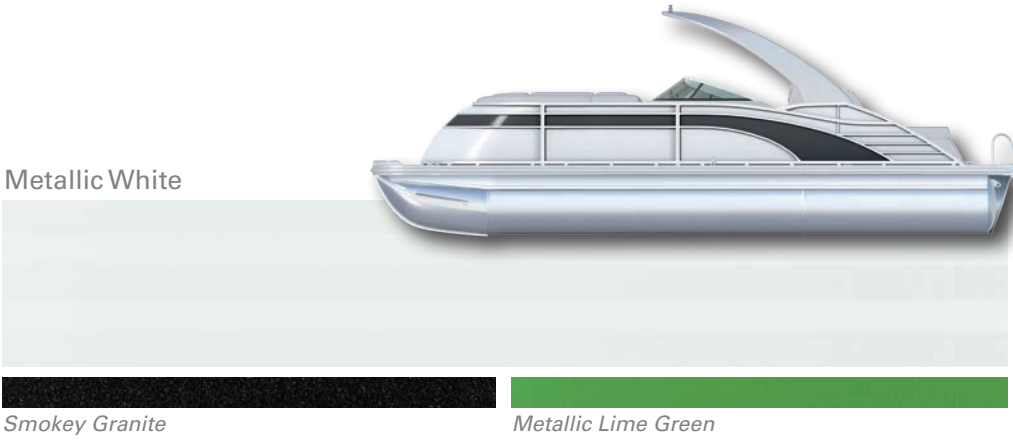

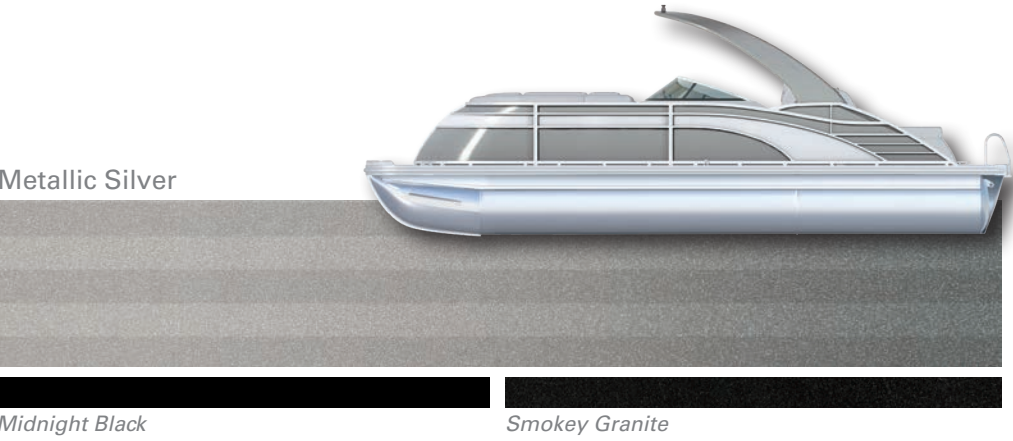

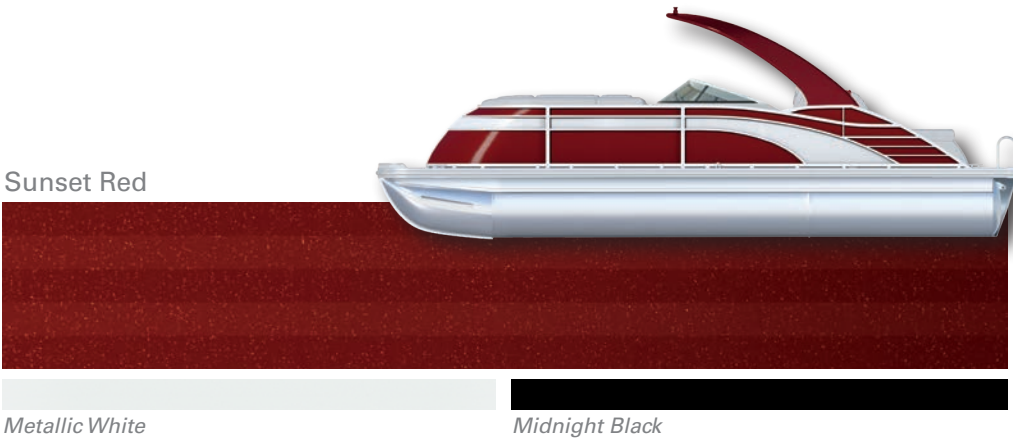

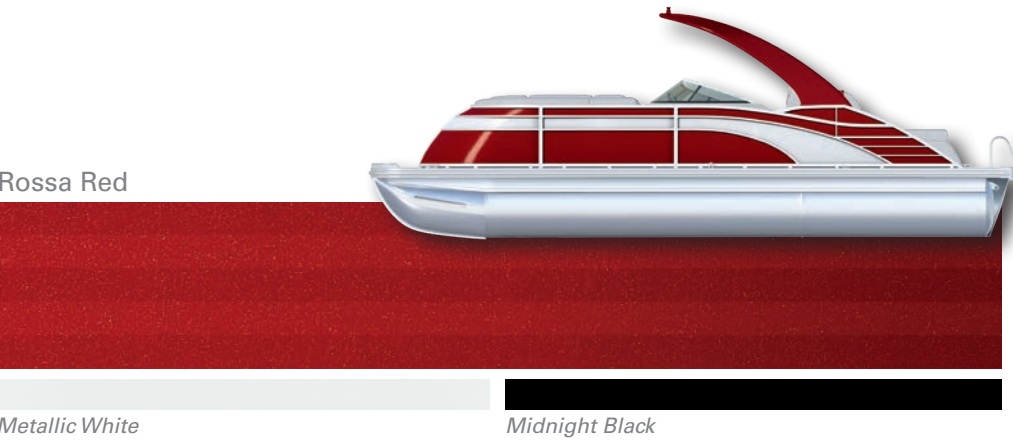

Shallow Draft	Good
Stability	Best
Watersports	Good
Outer Tubes	32" Elliptical
Center Tube	32" Elliptical

The ESP-10 is engineered to provide peak performance on a 10 foot wide-beam boat. It includes performance foils, lifting strakes, splash fins, three 32" wide elliptical pontoons made of .125 gauge aluminum internally reinforced. (Single engine model shown, also available as twin engine configuration.)

BENNINGTON WARRANTY

Industry-leading lifetime structural + 10-year bow-to-stern warranty

Lifetime Structural Warranty

As an owner of a new Bennington, you receive a Limited Lifetime Warranty on the structure, pontoons, gates, channels, motor mount & rotomold seat frames. If anything goes wrong, we will fix it. Season after season, your Bennington will be ready.

Lifetime Deck Warranty

As an owner of a new Bennington, you receive a Limited Lifetime Warranty on the 7-ply, pressure-treated, marine grade decking. Since they fasten the rails & deck directly through the under structure, Bennington decks flex less & will provide you with a lifetime of enjoyment.

10-Year Bow-to-Stern Warranty*

As the original owner of a new Bennington, the first ten years are covered directly by Bennington. All materials and workmanship are covered by us, including flooring, electronics, and upholstery. No hassles, no worries, no hand-offs. It's simple. Your dealer will register the warranty for you upon delivery of your new boat. Your engine is covered by the engine manufacturer's stated warranty.

Transferable Warranty

Bennington warranties are transferable through your local Bennington dealer adding to the resale value of your boat. The warranty period begins on the original owner's new boat purchase date. If the boat is sold during its warranty period, the standard warranty coverage will carry over to the new owner for the remainder of the original 10 year warranty—once the warranty is transferred through an authorized Bennington dealer.*

No Hand-Off To Suppliers

Bennington doesn't hand off warranty responsibilities to its suppliers. When it comes to warranty claims, your Bennington dealer will take care of it directly with Bennington. After all, no one cares more about your satisfaction than Bennington does.

No Pro-Rating

Bennington boats carry the same valuable warranty whether it's the first day or the last day of the warranty period. Bennington does not use a declining scale of coverage in its warranty, also known as pro-rating.

Partnership With Our Dealers

Bennington dealers receive 100% of the retail shop labor rate for warranty repairs. This ensures that your warranty work is a priority & completed quickly with your satisfaction in mind.

Excellence In Customer Satisfaction

Bennington has earned the Customer Service Index (CSI) award for "Excellence in Customer Satisfaction" an industry leading 22 times-every year since its inception. Given by the National Marine Manufacturer Association, the CSI Award recognizes manufacturers who receive exceptional satisfaction scores for boat, engine, & dealer experience.

* Please visit www.BenningtonMarine.com for specific warranty details and to register your boat.

DESIGN CENTER

Visit our new Virtual Design Center at www.BenningtonMarine.com

Begin building your new Bennington. With over 350 models, 13 exterior and 6 interior colors both with endless accent combinations and tons of options for every type of boater, we encourage you to be inspired and create a Bennington that is uniquely yours!

Once you've built your virtual Bennington visit your local Bennington dealer and experience firsthand the level of personal attention you deserve!

Celebrating Life On The Water

The Bennington family, including our dealers, employees, and suppliers, have an incredibly bright future, and we thank each one of you for the work ethic, dedication, and loyalty that goes into our brand. We also value the importance of our heritage- a focus on being the best, not the biggest, that is still the core of Bennington today. Thank you for being a part of the Bennington family.
